FLAURISOFT PS-C Cationic flake softener

DESCRIPTION

Flaurisoft PS-C is a flake form cationic softener which is easily soluble in water at 50°C. It imparts excellent surface softness to all types of fabrics and minimizes static problems and prevents soil attraction.

Unlike conventional softeners, finished fabric with **Flaurisoft PS-C** shows minimum yellowing and shade change, hence it is ideal for finishing of whites and light dyed material.

TECHNICAL SPECIFICATIONS

Appearance	: Pale yellow flakes
Ionicity	: Cationic
pH (1:10 solution)	: 3 - 6
Solubility	: Soluble in warm water
Packing	: 25 kg PE bags on pallets

APPLICATIONS

Recommended dosage

Dosage is usually varied with composition and type of fabric/garments and process conditions; generally a dosage of 2-10 gr/ltr (of diluted form) is ideal for application.

Adjust pH with Acetic Acid to 2.0 – 3.5

Application method

Cationic flakes are applied by padding or exhaustion method and it is recommended to be dissolved 1 to 10 or 12 in water.

The recommended pH values and other conditions are as follows;

pH: 2.0 – 3.5 & temperature: 40 – 45°C
