PROMACIDE B-30 Fungicide and anti-moulding agent

DESCRIPTION

Promacide B-30 is a low toxic fungicide especially formulated for wet-blue protection against mould and fungus attacks.

Promacide B-30 is free of PCP and phenol derivatives. It is destroyed in high alkaline medias and sulphide containing liquors.

TECHNICAL SPECIFICATIONS

Appearance	: Clear brown liquid
Nature	: P2-Thio Cyanato Methyl Thio Benzothiazole (TCMTB)
Charge	: Nonionic
Moisture	: Max. 0.5
Solubility	: Miscible with water
Activity	: 30 % (TCMTB)
pH (1:10 solution)	: 5 - 6
Packing	: 50 kg drums

APPLICATIONS

Promacide B-30 must be added as dispersion in order to assure a uniform distribution. This dispersion must be prepared prior to use. Hides and skins treated with **Promacide B-30** have shown high resistance to fungus attacks under storage conditions. For long term preservation, it is advised to use a higher dosage of the product and finally applying a uniform superficial spraying prior to storage.

Our recommendation for use is :

Soaking: Up to 0.05% based on raw weight

Pickling: Up to 0.1% based on pickled weight and before acids addition

Tanning (Wet blue) 0.1 - 0.3% based on pickled weight and at the end of chrome tanning.
