## PROSITAN NOS

Replacement sytan

### DESCRIPTION

**Prositan NOS** is a general purpose replacement sytan for the retannage of chrome leather containing formaldehyde and for vegetable tannage.

### TECHNICAL SPECIFICATIONS

Appearance @25°C	: Biege powder
Basis	: Phenolic
Solubility	: Cold / How water
Charge	: Anionic
pH (1:10 solution)	: 3.5 ± 0.5
Packing	: 25 kg bags on pallets

### APPLICATIONS

**Prositan NOS** is suitable for all types of leather and gives almost a white leather with a medium firm handle. As it has low astringency the fine pattern of grain is preserved. It provides a soft touch to leather and in combination with vegetable tannins, it brightens the color of leather. It also has a good leveling effect on dyes.

Leathers re-tanned with **Prositan NOS** exhibit good buffing and embossing properties. It is recommended to use it together with resin based syntans such as Prositan RN-7 to obtain better filling effect
