PROMASEL G

Deliming Agent

DESCRIPTION

Promasel G is an ammonium salt containing deliming agent, with excellent buffering properties. It eliminates any lime and transforms calcium salts and any lime blast into soluble matter. Promasel G ensures a rapid and uniform deliming and is especially formulated to provide a compact structure of loose skin parts (bellies) and good fullness with less pronounced veins and exhibits a very fine and clean grain pattern.

TECHNICAL SPECIFICATIONS

Appearance	: White powder
Solid content	: 93 - 95 %
pH (1:10 solution)	: 5 ± 1
Packing	: 25 kg bags on pallets or in big bags

APPLICATIONS

Dosage depends upon type and thickness of skin as well as upon the desired degree of deliming. Usually it varies between 2 and 4 %. In order to protect the hides and skins, the necessary amount of the product should be added in 2 or 3 installments. After the required degree of deliming, bating can follow in the same float.
