DEGRASSOL NE

Degreasing and Emulsifying agent

DESCRIPTION

Degrassol NE is a biodegradable degreasing, dispersing and emulsifying agent based on solvent-free formula used for high fat content skins. It can be used during the soaking, liming, deliming and bathing processes for more rapid removal of fat cleaner, smoother and more uniform pelts.

Degrassol NE is alkylphenol and nonylphenol free and formulated as per REACH standards. It does not inhibit the activity of enzymatic products.

TECHNICAL SPECIFICATIONS

Appearance : Clear viscous liquid
Basis : EOPO
Charge : Nonionic
pH(1:10 solution) : 7 ± 0.5
Water Content : Max. 0.5 %
Packing : 100 Kg plastic drums on pallets or IBC tanks

APPLICATIONS

Degrassol NE has high emulsifying properties and brings more even distribution of fats and increases penetration of other tanning chemicals. It can be used in broad range of PH. It dissolves equally well and quickly in both cold and warm water.

Dosage:

Sheep pelts: 3-4% (based on weight) in solvent-free process.

In soaking, deliming and bathing : 0.3 - 0.5%

If solvent is used together with the Degrassol NE for degreasing, the dosage of consumption of Degrassol NE can be reduced up to 40%.
